PROFILE SUMMARY

Motivated and detail-oriented Electronics and Communication Engineering undergraduate with a strong foundation in Html, Css, JavaScript, NodeJS, ExpressJS, MongoDB and C++. Passionate about building efficient and scalable applications. Seeking opportunities to apply technical skills and contribute to innovative solutions.

EDUCATION

Shri Ram Institute of Technology

Bachelor of Technology – Electronics & Communication Engineering **CGPA- 7.0/10**

2023 – 2027

Jabalpur (M.P.)

Saraswati Shiksha Mandir

*Class XII (Higher Secondary) - MP Board - **Percentage - 61%***

2020-2021

Jabalpur (M.P.)

Saraswati Shiksha Mandir

*Class X (Secondary) - MP Board - **Percentage - 81%***

2022-2023

Jabalpur (M.P.)

TECHNICAL SKILLS

Languages: Python, C++, HTML5, CSS3, TailwindCSS, JavaScript,

Developer Tools: VS Code, Git, Postman

Technologies/Frameworks: GitHub, ReactJS, Redux, , NodeJS, ExpressJS, MongoDB, Firebase, ReactBits, MaterialUI, ShadCN

PROJECTS

MediCore 🗄 | [ReactJS](#), [Node.js](#), [Express.js](#), [MongoDB](#), [ShadCN](#), [NodeMailer](#), [Multer](#)

April 2026

- Engineered a scalable full-stack Hospital Management System, supporting multi-role workflows (Admin, Doctor, Patient) with optimized RESTful APIs and modular architecture.
- Architected secure authentication & role-based authorization using JWT, bcrypt, and middleware layers, ensuring protected routes and data integrity across the system.
- Designed a dynamic appointment scheduling engine with real-time status updates, conflict handling, and automated notifications (Email/SMS), improving system reliability and user experience.
- Developed data-intensive features including PDF-based medical reports (PDFKit), bulk data import/export (Excel/CSV), and analytics dashboards, enabling efficient hospital operations and reporting.

EventO 🗄 | [HTML5](#), [Tailwind CSS](#), [ReactJS](#), [Node.js](#), [Express.js](#), [MongoDB](#), [ReactBits](#)

April 2026

- Developed a full-stack event booking platform with secure authentication, OTP verification, and role-based access control.
- Designed an admin dashboard to manage events, approve bookings, and monitor analytics like revenue, confirmed bookings, and pending requests.
- Integrated email services using Nodemailer and implemented secure APIs with JWT and bcrypt to ensure data protection and scalability.

LostAndFound 🗄 | [Tailwind CSS](#), [ReactJS](#), [Node.js](#), [Express.js](#), [MongoDB](#), [MaterialUI](#)

March 2026

- Engineered a full-stack MERN application to streamline reporting and recovery of lost items with secure user authentication and authorization.
- Developed scalable REST APIs and a personalized dashboard for managing posts and tracking item status using JWT, bcrypt, and middleware.

ACHIEVEMENTS

- Led a team as **Team Leader** in **Smart India Hackathon (Internal Round)**, successfully qualifying among **100+ competing teams**.
- Presented an innovative project **“Fuel Theft Detection System”** at **SRIT Project Expo**, demonstrating real-world problem-solving and IoT-based solution design.
- Solved **100+ problems in C++** on platforms like CodeHelp and other competitive coding sites.

CERTIFICATIONS

- Html css basic to beautiful - Udemy
- Web Development Basic - IBM
- Complete web development - Udemy
